★ DOMUS AUREA 2010 ★

We're always chasing new wines, new producers and new regions, but we should not forget the classics. The 2010 Domus Aurea from the Clos Quebrada de Macul is a textbook Cabernet-based Maipo red in what could be their finest vintage ever. If you want to understand what Maipo is about and why it got its reputation, this is a great place to start. 2010 produced a wine of balance, combining concentration, acidity and weight.
